## About This Website

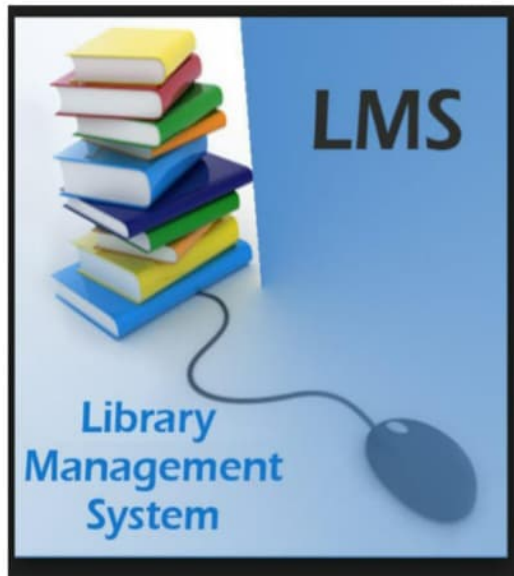

**We have created this website for library management system under our independent project for third semester.**

The library management system has been developed to override the problems prevailing in the practicing manual system. This software is supported to eliminate and in some cases reduce the hardships faced by the existing system. Moreover this system is designed for the particular need of the institution to carry out operations in a smooth and effective manner.

## We have created this website for library management system under our independent project for third semester.

The library management system has been developed to override the problems prevailing in the practicing manual system .This software is supported to eliminate and in some cases reduce the hardships faced by the existing system. Moreover this system is designed for the particular need of the institution to carry out operations in a smooth and effective manner.

Every Institution ,weather big or small has challenges to overcome and managing the information of books and students .Every library management system has different requirements therefore we design exclusive library management system that are adapted to requirements.
